Status of Metadata Working Group

- No update of QCDml since ILDG21
  - no request to markup something new

- Latest version
  - **QCDmlEnsemble1.4.8** released on June 8th, 2013
    - markup "Twisted mass quark actions with clover term"
  - **QCDmlConfig1.3.1** released on Jan. 17th, 2010
    - agreement of simplification (at ILDG21), i.e.
      allow DUMMY values for mandatory XML elements, except **markovChainURI, dataLFN, precision,series, update, crcCheckSum, avePlaquette**

- To be discussed
  - **markup DOI for ensemble** (after the issue is settled)

Supplemental Informaion

- Validation of XML documents (Ensemble/Config.)
  - frequent down of ILDG website (see MWWG report)
  - QCDml schema are accessible (maintained by USQCD)

- unofficial Web-page for ILDG MDWG
  - http://www2.ccs.tsukuba.ac.jp/ILDG
  - for my own use, but may be useful for others
