

8th Circum-Pan-Pacific Symposium
on High Energy Spin Physics:
PacSPIN 2011

Monday, 20 June 2011

All talks total of 40 mins, including 5-10 mins discussion

7.30	Breakfast - Conference Verandah	
8.00	Registration	Outside Lockhardt Conference Room, Conference Centre
8.30	Conference Opening	(http://www.cairnscolonialclub.com.au/ccplans.html)
Session Chair: Jen Chieh Peng		
8.40	Seonho Choi	Spin physics at Jefferson Lab
9.20	Doug Fields	Experimental evidence of Partonic Orbital Angular Momentum at RHIC
10.00	Terrance Goldman	Physical degrees of freedom for gauge fields
10.40	Coffee/Tea Break - Conference Verandah	
Session Chair: Zein-Eddine Meziani		
11.00	Kensuke Okada	Delta G and Delta qbar at PHENIX
11.40	Yongmin Cho	Nuclear momentum and spin decomposition
12.20	Masashi Wakamatsu	Orbital angular momentum of quarks and gluons in the nucleon-model-dependent versus model-independent extraction
13.00	Lunch Break - Conference Verandah	
16.00	Coffee/Tea Break - Conference Verandah	
Session Chair: Jian Ping Chen		
16.20	Vladimir Pascalutsa	Sum-rules for light-by-light and Compton scattering
17.00	Gerhard Reicherz	New spin-physics experiments with frozen-spin target at MAMI
18.00	Welcome Reception	Tropical/Small Pool on the Conference Lawn

8th Circum-Pan-Pacific Symposium
on High Energy Spin Physics:
PacSPIN 2011

Tuesday, 21 June 2011

All talks total of 40 mins, including 5-10 mins discussion

Session Chair: Terry Goldman

7.45	Breakfast - Conference Verandah	
8.30	Hrayr Matevosyan	Recent developments in NJL-jet model for calculating fragmentations
9.10	Ralf Seidl	Polarized fragmentation functions from BELLE
9.50	Takahiro Iwata	Recent COMPASS results on transverse physics
10.30	Coffee/Tea Break - Conference Verandah	
Session Chair: Shunzo Kumano		
11.00	Norihiro Doshita	COMPASS-II: COMPASS Future Programs
11.40	Leonard Gamberg	Semi Inclusive Deep Inelastic Scattering (SIDIS)
12.20	Mher Aghasyan	Studies of 3D structure of the nucleon with CLAS at JLab
13.00	Lunch Break - Conference Verandah	
16.00	Coffee/Tea Break - Conference Verandah	
Session Chair: Seon Ho		
16.20	Ross Young	Electro-weak tests and nuclear structure
17.00	Yuji Koike	Probing multi-gluon correlations through single spin asymmetries in pp collisions
17.40	Morgan Murray	Deeply virtual Compton scattering at HERMES

8th Circum-Pan-Pacific Symposium
on High Energy Spin Physics:
PacSPIN 2011

Wednesday, 22 June 2011
All talks total of 40 mins, including 5-10 mins discussion

Session Chair: Bernd Surrus

7.45		Breakfast - Conference Verandah
8.30	Fu-Guang Cao	Applications of symmetry breaking in determining PDF's of the nucleon
9.10	Timothy Londergan	Charge symmetry violating effects in spin distributions
9.50	Zuo-tang Liang	Higher twist contributions to azimuthal asymmetries in SIDIS
10.30		Coffee/Tea Break - Conference Verandah

Session Chair: Masashi Wakamatsu

11.00	Wen-chen Chang	Flavor asymmetry of the nucleon sea and its connection with the five-quark components of the nucleon
11.40	Itaru Nakagawa	Sea quark polarization measurement via W-boson in forward rapidity at PHENIX
12.20	TBA	TBA
13.00		Lunch Break - Conference Verandah
16.00		Coffee/Tea Break - Conference Verandah

Session Chair: Xin Heng Guo

16.20	Ben Menadue	The $\Lambda(1405)$ resonance in full QCD
16.45	Koichi Kanazawa	Twist-3 predictions for single spin asymmetry for light-hadron production at RHIC
17.10	Nathan Hall	Finite volume corrections to the nuclear axial charge
17.35	Andrew Casey	Di-hadron fragmentation functions
18.00	TBA	TBA

8th Circum-Pan-Pacific Symposium
on High Energy Spin Physics:
PacSPIN 2011

Thursday, 23 June 2011

All talks total of 40 mins, including 5-10 mins discussion

Session Chair: Leonard Gamberg

7.45		Breakfast - Conference Verandah
8.30	Ian Cloet	A covariant description of nucleon spin structure and TMDs
9.10	Anthony Thomas	Symmetry violation and Standard Model tests – the NuTeV Anomaly
9.50	Shunzo Kumano	Unpolarized and polarized PDFs in nuclei
10.30		Coffee/Tea Break - Conference Verandah
Session Chair: Takahiro Iwata		
11.00	Jen-Chieh Peng	Nucleon structure and the Drell-Yan process
11.40	Bernd Surrow	Recent STAR results on the gluon polarization and W production program in polarized pp collisions at RHIC
12.20	Xin-Heng Guo	Studies of heavy hadron physics
13.00		Lunch Break – Conference Verandah
16.00		Coffee/Tea Break - Conference Verandah
Session Chair: Tim Londergan		
16.20	Jian-ping Chen	Recent Spin results from JLAB Hall A
17.00	Zein-Eddine Meziani	Spin at JLab 12 GeV and the EIC
18.30	Bus Departure	To Tjapukai Aboriginal Cultural Park
19.00	Pre Dinner Show	Tjapukai Aboriginal Cultural Park
20.00	Dinner	Tjapukai Aboriginal Cultural Park
22.00	Bus Departure	To Cairns Colonial Club Resort
